

Support HR 1207, Audit the Federal Reserve

As of today, almost **\$10 trillion in bailouts and loans** have been agreed to by Congress, the Treasury Department, and the Federal Reserve.

With our **national debt approaching \$11 trillion**, it is critical that we demand a full accounting of how the government has spent our money.

The Federal Reserve, the unelected central bank of the United States, releases details of its meetings and activities on its own time-table, if at all. Its monopoly over the flow of money and credit in our country has once again led us into a preventable economic crisis.

Yet, the Federal Reserve has refused to tell Congress and the rest of us how it is spending our tax dollars as it piles bailout on top of bailout and lends to other nations.

Congressman Ron Paul's Audit the Fed bill will bring transparency and accountability to an institution that has reduced the value of our dollar by 95 percent since its creation in 1913.

Contact your representative today at (202) 224-3121 and ask them to cosponsor Ron Paul's Audit the Fed bill. For more information, contact us at auditthefed@campaignforliberty.com.

"People are demanding answers and explanations for our economic malaise, and we should settle for nothing less than the whole truth on monetary policy." - Congressman Ron Paul
